

Kindergarten Snow Day #6

Hi everyone! Do your best, and show what you know!

1. Before eating one of your meals today, say *Grace* and name something you are grateful for. _____
2. Choose a book to read (or be read to). Did the story have a happy ending? Write in a couple words or a sentence on what happened at the end of your story on your drawing. _____
3. Play Memory Match with your sight words. _____
4. Do a science experiment to see how much water is in snow. Fill a cup or bottle with some snow. Mark where the snow level is with a marker or piece of tape. Talk about the following questions: When the snow completely melts, how much water do you think will be left in the cup / bottle? How long do you think it will take all the snow to melt? Keep the cup / bottle some place in the house that is room temperature. Wait until the snow has melted and then see whether the water level is higher or lower than the amount of snow that was in there. Were your predictions correct? _____
5. Practice writing the following letters: Ff, Gg, Hh, Ii, Jj. Write each letter 5 times. _____

****Parents:** Please print this page out and initial each item to show the activity has been completed. Then, attach any work to this sheet with student name on each paper. Thank you! Work is due the following school day!
